

The Wind Sail product line is an extremely versatile marketing tool. All shapes accept the same hardware so there is never any additional hardware to purchase if a new shape is desired. Flags can quickly and easily be changed for a new marketing campaign. A wide variety of bases makes it easy to display your Wind Sail indoors or outdoors.

- Aviation-grade Fiberglass Poles can withstand winds exceeding 63mph with the Wind Sail 200
- No black “poly-stretch” header tape - Printing on the pole sleeve increases valuable advertising space and visual appeal
- Fitted poles prevent internal pole collapse commonly seen with telescopic poles
- Many base options allow free movement in the wind using an integrated bearing
- All shapes use the same hardware making it easy to buy replacement prints without buying an additional Pole Set

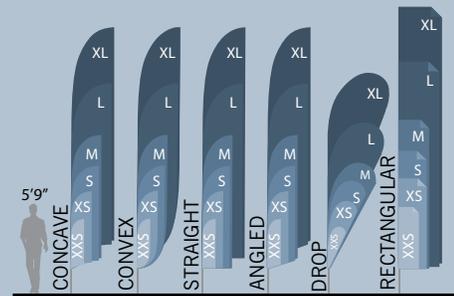

Be versatile with the Wind Sail!

Ordering Steps

1

Step 1: Size and Shape

2

Step 2: Carrying Case Upgrade

Option1: No Carrying Case (Economy Bag comes standard with each Pole Set)

Option2: Durable polyester Carrying Case

3

Step 3: Base Option

Multiple bases can be combined with each of the Pole Sets. Consider how and where you want to use your Wind Sail when choosing a base.

ADVANTAGES

SPECIFICATIONS

Criteria	First generation - Wind Sail 100	Second generation - Wind Sail 200
Description	Versatile Economic option with good durability at a competitive price.	Proven durability and strength Developed for durability in high wind areas especially when using double-sided flags.
Wind Speed (Wind tunnel tested)	 S/R flag: 25-30mph (6bft) D/S flag: 13-17mph (4bft)	 S/R flag: 55-63mph (10bft) D/S flag: 39-46mph (8bft)
Frame Construction	Top: Fiberglass poles Bottom: Aluminum poles	Aviation-grade Fiberglass poles
Assembly	Constructed using fitted poles that secure into position unlike telescopic poles which can result in internal pole collapse.	
Printed Pole Sleeve	By printing on the pole sleeve, you gain valuable advertising space and visual appeal that would be lost if using black "poly-stretch" header tape.	
Pick & Choose Policy	We make ordering easy by offering standard product sets; however, you can also pick and choose items such as pole sets, bases, and accessories to better meet your needs. We have the largest selection of hardware, base, and accessory options of any provider. All bases and almost all accessories can be used with any size Wind Sail.	
Inventory and Production Time	We offer the largest hardware inventory in the United States. You can depend on fast production and timely shipping for even the largest quantities.	
Quality and Value	Wind Sail 100: Excellent quality for a reasonable price. When used for outdoor advertising with double-sided flags, best suited for lower wind speed conditions. Wind Sail 200: Best durability. When used for outdoor advertising with double-sided flags, best suited for higher wind speed conditions. Whichever model you choose, the Wind Sail 100 and Wind Sail 200 are proven to be among the best in the industry.	
Poles	 1-2 Fiberglass poles 1-3 Aluminum poles	 3 Aviation-grade Fiberglass poles for Medium and Large 4 Aviation-grade Fiberglass poles for XLarge
Pole Color	Silver-gray	Silver-gray
Pole Set Includes	Pole Set, Economy Bag, bungee cord with tensioner and Spring Snap, and construction sheet.	Pole Set, Economy Bag, bungee cord with tensioner and Spring Snap, and construction sheet.
Flag Finishing	Single-reverse Double-sided Wind Sail 200 Pole Set is recommended for outdoor double-sided flags	Single-reverse Double-sided Wind Sail 200 Pole Set is recommended for outdoor double-sided flags
Sizes	Tabletop, XXSmall, XSmall, Small, Medium, Large, XLarge	Medium, Large, XLarge
Shapes	Concave, Convex, Straight, Angled, Drop, Rectangular	Concave, Convex, Straight, Angled, Drop, Rectangular
Stock Colors	Bold stock color choices are available to attract attention when a custom graphic is not needed.	
Carrying Case Upgrade	The Carrying Case is made of polyester featuring individual pockets for all components which provides safety during transportation.	
Versatile Base Options	Any base can be used with all sizes. There are many base options available to ensure the best base is selected for the application.	

Wind Speed Tested and Approved - The Wind Sail tested to be the best in the industry

In recent wind tunnel testing of the Wind Sail product line, the Wind Sail proved its quality and durability yet again. The Wind Sail hardware withstood winds reaching up to a top speed of 63mph. The Wind Sail product line undoubtedly remains among the most durable in the industry. The wind speed test included both the 1st and 2nd generations of the Wind Sail. The Wind Sail 100, the 1st generation of the Wind Sail product line, was first tested using a single-reverse flag. It reached speeds well above 25-30mph, a 6 on the Beaufort Wind Scale (bft). The 2nd generation Wind Sail 200 was also tested using a single-reverse flag. It amazingly matched speeds ranging from 55-63mph (10bft), with no damaging effects.

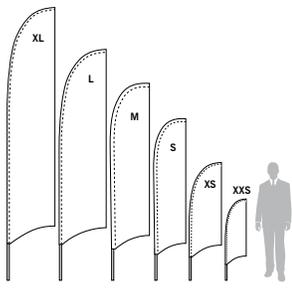

The final test was to prove the durability of the Wind Sail product line when using double-sided flags. The Wind Sail 100 was able to fly in 17mph (4bft) which meets the industry standard. Astounding results were recorded when the Wind Sail 200 performed well above expectations reaching 46mph (8bft) and above without hardware failure. This proves the newest generation of the Wind Sail is a tremendous success!

The numbers indicated below are the **approved** wind speeds. These extensive tests were executed to support our drive to provide the highest quality products in the industry. Both Wind Sail generations performed at the top of their class. The success is clear for both generations, the Wind Sail product line will provide versatility and style along with lasting durability to your marketing campaign.

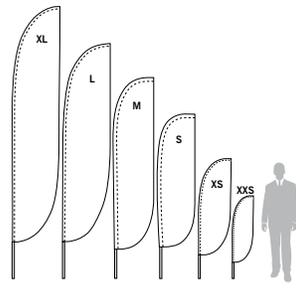

Ask our competitors to present documented strength tests on their products equivalent to the Wind Sail!

Can be fitted with graphic and used as promotional counter.

Wind Sail Street Banner

The Wind Sail Street Banner takes the popular Wind Sail where it's never gone before. The new Pole Holder Bracket Set allows the special Wind Sail poles to be mounted at multiple angles for use indoors or outdoors. The adjustable steel bands allow it to mount on many types of poles with different diameters. The flags are available in one size and in 6 shapes making the Wind Sail Street Banner the most flexible promotional display on the market.

- Simple to attach and detach with no harm to the pole
- Creates a different look by adjusting angle
- Expands the reach of promotional message into new spaces

Flag Shape	Hardware	Material SR DS
Concave Convex Straight Angled Drop	(1) AC2210 Pole Holder Bracket Set	Knitted Polyester
	(4) AC2203 Stainless Steel Bands	

The closer you install the Pole Holder Brackets to each other, the further away the flag will be from the pole.
