## Revolutionizing The Kitchen - Ceramic Knives

- Used daily by top chefs around the world
- Slice through boneless meat, fruit & vegetables with ease & precision
- Harder than steel, Zirconia\* Ceramic is second only to diamond in hardness
- Ceramic Knives retain edge up to 10 times longer than conventional knives
- No rust, no corrosion, stain proof & non-reactive to acids found in fruit and veg.
- Replaces most everyday kitchen knives

- Zirconium oxide (ZrO<sub>2</sub>; also known as zirconia) is fired in a high temperature furnace to create a material that is second in hardness only to diamond.
- Zirconia is environment friendly.
- Non-Magnetic, Non-Conductive and Non-Stick.
- Care Instructions: Hand wash and only use for purpose for which the blade is designed.
