Every wine has a specialized glass made to enhance the sensory experience. Even if your palette is not as sophisticated as a sommelier, you are sure to find the perfect glass in our catalog to make your wine experience a memorable event.

The curved balloon-like shape of the Oldham collection is perfect to enjoy the radiant color of a deep burgundy wine. The taper captures the aroma and allows for a generous swirl to unlock the hidden beauty of any red wine. The white wine glasses have a taller taper to highlight a wine’s acidity, evening out the sweetness and power for a silky smooth sip.

Specialty drinks require special glasses. Stirred or shaken, the Martini will always be the classic drink when served in the traditional shape. The broad open rim of the Margarita glass allows for the perfect percentage of salt to drink. The tall flute of the Champagne glass with its narrow opening allows the display of bubbles to last as long as the drink itself.
